“At Merarch, we don’t just design spaces, we create places that honour the land, inspire the people who live there, and reflect the future we want to build.”

WWW.MERARCHSTUDIO.MU

Merarch Studio Ltd is an architectural and design consultancy co-led by Christophe Lincoln (18 years of experience) and Juliaty Narrainen (35 years of experience). Based in Mauritius, the studio is known for its refined approach to residential development, with a strong focus on sustainability, innovation, and client-centred architecture.

Both passionate about architecture, Christophe and Juliaty have known each other since 2009 and previously worked together at Ahmed Rawat Architect. They collaborated on numerous commercial projects, including the Bramer Building (Ebène) and Apollo Bramwell Hospital (Moka), among others.

The name “Merarch” is derived from the Greek word “Meraki”, which means doing something with soul, creativity, and love, putting the essence of oneself into the work. This philosophy defines their approach to architecture: passionate, personal, and purposeful.

Founded in 2021 by Christophe Lincoln and Juliaty Narrainen, Merarch Studio emerged from the rebranding of Fahrenheit Development Ltd. With a portfolio of over 80 individual houses across the island and several high-profile commercial projects, including office fit-outs for Medine Property, Blue Life (Azuri), and Rogers, the duo brings deep expertise in construction, technical coordination, and project execution.

Juliaty Narrainen serves as the studio’s lead architect. Her extensive experience strengthens Merarch’s commitment to contextual architecture that blends aesthetic sensitivity with functional purpose. Together, Christophe and Juliaty form a dynamic leadership team that unites creative vision with operational rigour.

With a design philosophy grounded in responsiveness, site intelligence, and architectural clarity, Merarch Studio continues to help shape Mauritius’s evolving built environment. Under the direction of Christophe Lincoln and Juliaty Narrainen, the firm is a trusted partner for clients seeking thoughtful, elegant, and enduring design solutions

A vertical wall of bamboo poles, showing the natural texture and color of the bamboo. The poles are arranged in a regular pattern, creating a rhythmic visual effect.

Tropical Elegance

A blurred background of palm fronds, creating a soft, tropical atmosphere. The fronds are light-colored and appear to be in motion, adding a sense of depth and texture to the scene.

TROPICAL VILLA
DOMAINE DE PALMYRE
BLACK RIVER

Designed with nature in mind
& well being at heart

01

HOUSE IN BLACK RIVER – DOMAINE DE PALMYRE

Type: Residential
Year: 2018
House area: 533m²

BACKGROUND:

Inspired by the African Savanna, Domaine de Palmyre is a stunning development nestled on high grounds amongst unspoilt valleys and mountains and offers a concept that proudly enhances the fauna and flora of the region.

The area is home to a broad collection of indigenous plants and animal species. To the delight of its select clientele, the relaxing sounds of the surrounding wildlife can be heard, with deer, monkeys, hare and exotic birds living freely in this peaceful sanctuary.

Domaine de Palmyre's strict architectural guidelines aim to preserve the originality of the site by harmonising the construction and preserving the area's natural features.

ref: <https://www.thereserve.mu/location/>

This residence was conceived as a sanctuary where architecture and nature engage in quiet dialogue. Nestled at the foot of the mountains, the design seeks to embrace the landscape rather than impose upon it. Generous openings and a seamless indoor-outdoor flow invite natural light, ventilation, and greenery into the heart of the home, creating a sense of openness and calm. The use of solar panels reflects a commitment to sustainability, while the mix of timber, stone, and neutral tones echoes the natural palette of the

site. Every element – from the shaded verandas to the sheltered lounge pavilion – is crafted to offer comfort, functionality, and connection to the environment. It is a home designed not just to inhabit, but to live in harmony with its surroundings.

Lush Luxury

TROPICAL VILLA
LES VERGERS DE GROS BOIS
MARE D'ALBERT

Perfectly balanced lifestyle

02

VILLA IN LES VERGERS DE GROS BOIS MARE D'ALBERT

Type: Residential
Year: 2017
House area: 387m²

BACKGROUND:

Nestled within the vibrant heart of Gros Bois, Mauritius, Les Vergers de Gros Bois offers an exceptional living experience that beautifully blends modern comfort with the serene tranquility of nature. As part of the larger Savannah Connected Countryside, this residential enclave is thoughtfully designed to create a harmonious environment where green spaces and contemporary living converge.

Les Vergers de Gros Bois promotes a lifestyle of balance and well-being. With convenient access to essential amenities, including schools, commercial spaces, and recreational facilities within the Savannah smart village, everything you need is just moments away. It's a place where daily life flows effortlessly, allowing you to reconnect with nature while enjoying the conveniences of a modern, integrated community.

ref: <https://savannah.mu/>

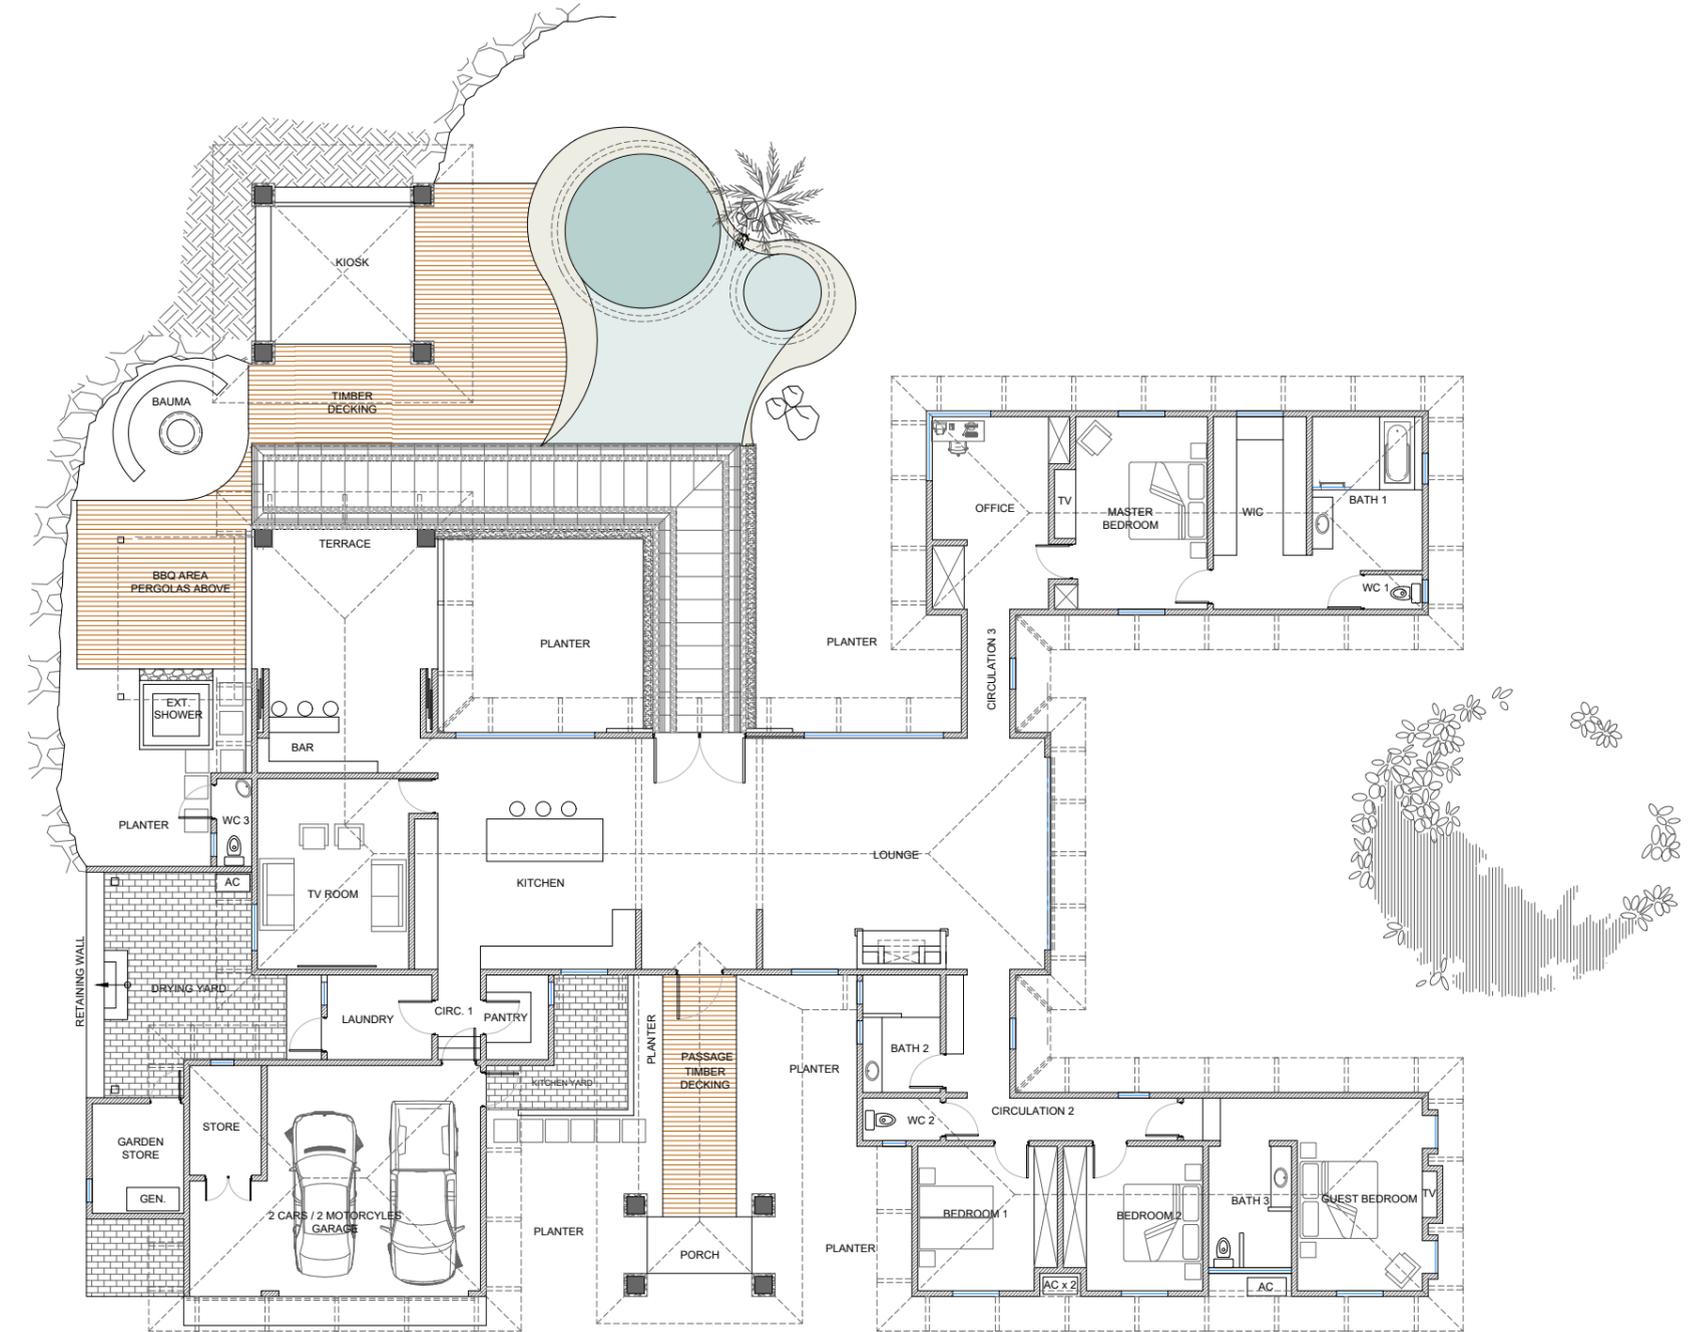

This residence offers a seamless blend of interior comfort and natural beauty. The design embraces its lush surroundings, featuring expansive openings and fluid living spaces that celebrate natural light and effortlessly connect with the tropical environment. Here, the vibrant landscape becomes an integral part of daily life, creating an elegant and serene retreat that perfectly embodies the spirit of Mauritius.

MERARCH
STUDIO

The logo consists of a stylized 'M' and 'A' on the left, where the 'M' is black and the 'A' is white with a black outline. To the right, the words 'MERARCH' and 'STUDIO' are stacked in a bold, sans-serif font. The 'M' and 'A' are positioned to the left of the 'ERARCH' part of the word 'MERARCH'. The entire logo is overlaid on a dark gray background with a faint grid pattern.
